ABSTRACT

This report provides statistical data on trends in tuition and other basic student charges at the 66 State University of New York (SUNY) community colleges, colleges, and universities between 1963-64 and 1996-97. The first section of the report provides tables summarizing tuition and other charges (such as room, board, and fees) by program level and residency status from 1963-64 to the present. The second section of the report provides data on tuition and fees for undergraduate and graduate students at individual institutions and by institutional type, as well as for the system as a whole from 1982-83 to the present. It also reports trends in the distribution of allowances for variable student costs (room, board, transportation, books, personal expenses) for three cohorts of students at individual institutions and institutional types, as well as system-wide data. Trends in total undergraduate costs and allowances within student budgets by residency and living arrangement at individual institutions and institutional types are reported. The third section contains a list of related publications. (JLS)

INTRODUCTION

This report presents the results of the survey ***Basic Student Charges*** for institutions of the State University of New York. These data are collected annually in the fall of each year by the System Administration Office of Institutional Research.

The total student costs consist of fixed costs (tuition and fees) and variable costs (room, board, books, personal items, transportation and miscellaneous.) These data are collected with the cooperation of the campus Financial Aid Offices and represent the dollar figures that are used in putting together the financial aid packages for students. There may be substantial differences between the figures listed for the variable costs and the actual expenditures of an individual student since the amount spent will be dependent upon the program the student is enrolled in, individual tastes, and funds available.

Table 96/1322 in Part I enumerates the fixed costs since the inception of standard tuition charges across the State-Operated institutions, as well as some of the more basic variable costs for students living in dormitories. The tables in Part II list trends in all basic student charges for students at all institutions that comprise the State University of New York since 1982.

We would like to thank those individuals on the campuses who are responsible for providing this office with timely and accurate data. The collection of this information required their extensive cooperation and continued support. Our gratitude is also extended to our secretarial staff of Vikki Mazzone and Kathy Bartoszewicz who were responsible for assembling the final manuscript and the proper distribution of the publication.

SUMMARY

FIXED CHARGES

Fixed charges in this report are those required of all full time students, regardless of their program. Differing charges would be applicable to part time students. Certain assessed charges, e.g. lab fees required within certain programs, are not enumerated since they are not applicable to all students. Table 96/1377 lists these charges by institution and institution type for the last fifteen academic years.

Tuition

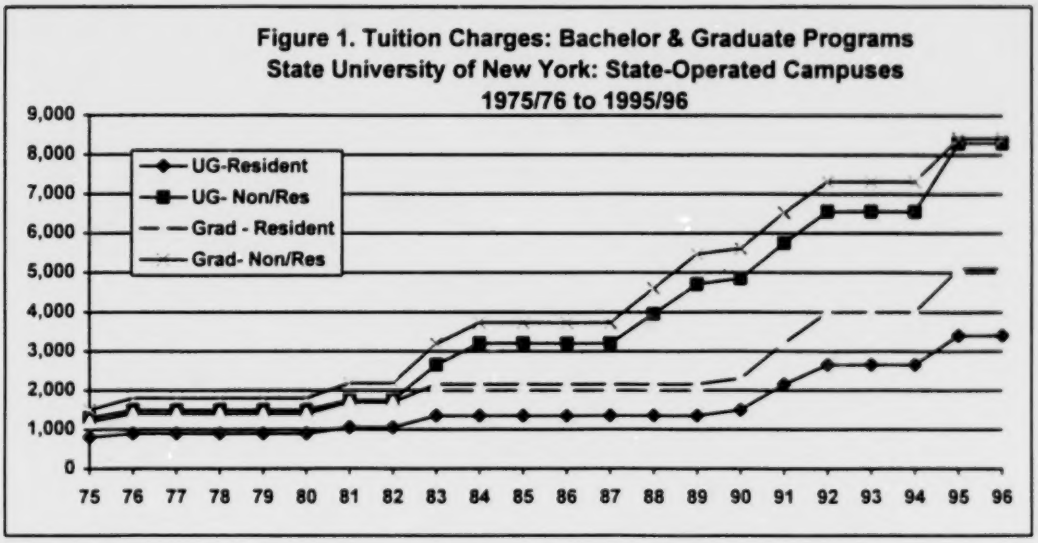
Tuition charges at the State-Operated institutions remained at the same level as was charged last year; the only change was a decrease in the non-resident charges at Canton which were lowered to $5,100.

Tuition and the required college fee are set by the State University Board of Trustees for all institutions except the Statutory Colleges and Community Colleges. The history of these charges at the State-Operated institutions are enumerated in Table 96/1322. This table also lists the credit hour charges used to determine tuition for part time students at these institutions. The rate of tuition at Ceramics and the Statutory Colleges at Cornell are set by their respective Trustees after consultation with the State University Board of Trustees. The tuition rates at the Community Colleges are established by each of their respective governing bodies but in general cannot exceed a ceiling of $2,500 for 1995-96 (note that one Community College, Jamestown, received special dispensation to charge $2,600 this year); the rate for out-of-state students at the Community Colleges can be up to three times the in-state rate at these institutions.

Figure 1 displays the pattern of tuition charges at the State-Operated colleges - flat lines interspersed with steep pitched lines. Figures G96/19 and G96/22 further illustrate the pattern of undergraduate tuition for the past several years within the system.

Undergraduate tuition increases at the Statutory Colleges for 1996-97 amounted to 3.7% ($310) at Cornell and 6.9% ($500) at Ceramics for resident undergraduate students. Similar increases occurred for other categories of students.

There were tuition increases at 26 of the 30 Community Colleges this year; the increments ranged from $75 to $250 with the modal increment being $150. As a group, tuition for New York State residents at the Community Colleges increased 5.8% to an average of $2,293 for this academic year.



College Fee

A standard $25 college fee is charged to all full time students in the State- Operated institutions excluding the Statutory colleges.

Student Activity Fee

Each SUNY institution has a mandated student activity fee for undergraduate students. This fee varies by institution but is generally used to cover a spectrum of activities which may include recreational and social activities, musical groups, athletic activities, student publications, theatrical productions, class activities, etc. This year's fee ranges from a low of $20 per academic year to a high of $474 with an average of $123 (this average excludes Fredonia where the activity fee is combined with other fees and cannot be disaggregated.)

Other Required Fees

This category of expense covers any other fees that are required of so large a proportion of students at an institution that the student who does not pay the fee is an exception to the rule. The trend for an increase in this type of fee that started in the 1991-92 year continued into this year. In 1991-92, 52 of the system's 64 campuses had other required fee with an average charge of $85. The number of campuses charging these fees has since increased by one and the average charge is now $195.

VARIABLE CHARGES

This category of costs includes the other expenses incurred by students—living expenses, books, supplies and personal items. In this publication, items in the variable cost category are tabulated separately for three cohorts of students: those living in campus residence halls, those living in non-institutional housing in the community, and commuter students living at home.

Room and Board Charges/Allowances

For residence hall students, the reported room charges represent an average charge for a double room. Of the 29 State-Operated institutions, only two are non-residential colleges: Empire State College and the College of Optometry. Students attending one of the five statutory colleges receive room and board through the private college counterpart. Syracuse University provides room and board facilities for students at the College of Environmental Science and Forestry. The room charge at the remaining 26 State-Operated institutions is determined individually at each campus with approval by the Board of Trustees.

With the exception of the Brooklyn Health Science Center and Syracuse Health Science Center, meal plans are also available at the residential colleges. Meals are typically provided by a campus affiliated faculty student association with a variety of plans being offered. The tabulated costs in this publication are for the modal board charge on each campus. A comparison of the combined room (standard double) and modal board charge for the last ten year period are shown in Table I.

The Fashion Institute of Technology and Mohawk Valley Community College are the only community colleges that have dormitory facilities for students.

As noted earlier, the room and board allowances reported by the campuses for students living in the community in non-institutional housing and for those students living at home represent average amounts used in constructing a student budget. The charges listed in this publication for room and board for students living on campus will closely approximate actual costs. However, there is considerable variation in ways of determining the allowances specified for those living in off-campus facilities or at home. Likewise, there may be wide differentiation between these allowances made and the actual costs incurred.

Other Student Costs

This represents the remaining costs to students and is broken down into the following categories:

- Books and supplies
- Transportation
- Personal/other items

These items will vary the most in dollar size amongst students. Again, the amounts reported are those used to construct a student budget. The methodology used by each financial aid office to determine a student budget may vary from one year to the next. Therefore, for making comparisons, either year by year for a given institution, or in comparing two different institutions, one should look at costs in their totality as well as individual allowances.

FOOTNOTES

[a]Original constituent institutions of the State University of New York at its establishment in 1948.

[b]Date of establishment as a state college or institution.

[c]Date of incorporation into State University of New York.

[d]As of July 1, 1975, New York City Community College and the other community colleges (not shown here) sponsored by the New York City Board of Higher Education were no longer a part of the State University of New York.

NOTE: Dates preceding date indicated for establishment as a state college or institution refer to institutional antecedents of the present college or university. These my have been private institutions or controlled by a governmental entity other than the state. Intermediate institutional developments such as other college affiliation or date of first baccalaureate program offering have been omitted for the sake of brevity.

NOTES:

1. All costs exclude the Statutory Colleges at Cornell and Alfred; Forestry is excluded from room and board charges shown.
2. Tuition charges for Optometry (O.D. program) were calculated the same as Law and Pharmacy prior to 1977-78.
3. Fees: the figures shown are the college fee for a full-time student. Additionally, students pay a student activity fee which varies from campus to campus.
4. Room: The figures shown are the average costs for a standard double room.
5. Board: Not all campuses have meal plans; several plans are available at those campuses that do offer meal plans. The figures shown represent an average for a seven-day plan.
6. Out-of-state tuition at Canton was set at $5,100

Notes:

[1] From 1972-73 through 1978-79, there was a tuition differential between Lower Division and Upper Division students; the Upper Division tuition rate is shown here, the Lower Division rate would be the same as that shown for the Associate degree.

[2] The tuition rate was increased at mid-year during 1990-91; the rate shown here is the sum of the rate charged for the fall semester and the rate charged for the spring semester.

[3] Non-resident tuition at Canton is $5,100 for 1996/97.

The Statutory Colleges and the Community Colleges are excluded from this table.

Notes:

**For 1996-97, the activity fee at Fredonia was included with "Other Fees"

Fee averages for institutional types may not add across to totals since each average includes only those institutions which have such fees.

Averages shown for state-operated institutions exclude the Statutory Colleges and the Community Colleges.

Undergraduate tuition rates shown for Alfred, Cobleskill, Farmingdale and F.I.T. are the rates for students enrolled

NOTES:

* Averages shown for institutional types may not add across to totals since each average reflects only those institutions for which a number is shown.

(1) Transportation costs for Binghamton are included with "Personal/Other" for 1986/87 to 1989/90 for students living in residential halls and for those living in non-institutional housing in the community.

(2) The category "Personal/Other" includes allowances for room, board,, and transportation for commuter students at Binghamton from 1986/87 to 1989/90.

(3) Although Empire College operates on a 12 month basis, the expenses shown are for a 9/10 month academic year to make the data compatible with the other institutions.

(4) Brooklyn and Syracuse do not provide meal plans for students. The amounts shown reflect the allowances contained within a student budget for meals.

NOTES:

1) The individual components which make up the fixed costs may be found in table 96/74. The components which make up the variable costs may be found in table 96/75.
2) The averages shown may not add across to totals for institutional types since each average shown is composed of only those institutions which have such fees or allowances.
3) State Operated institutions excludes the Statutory Colleges and the Community Colleges.
